

# BE A **C**ITRUS SLEUTH

Can you tell these fruits apart?

## Clue: Navels vs. Valencias

To tell these sweet oranges apart, look for the navel's signature "belly button"! Winter navels are thick-skinned and great for snacking; summer Valencias are thin-skinned and perfect for juicing.

## Clue: Mandarins & Tangerines

"Tangerine" is a nickname for mandarins—they're the same kind of fruit! They come in many varieties, from tiny Ojai Pixies to big, bumpy Dekopons.
